Here is a neat and tidy way to store your brushes on the wall instead of standing them in a container on a table which uses up space you may be short of!

After cleaning your brushes thoroughly in the appropriate solvent and soap and water, you can store them upside down in the following way for easy and convenient use, ready for the next painting session.

Take a small plank about 45 cm long and 8cm wide and drill a row of holes about 2 cm from the top and about 2 cm apart. Thread elastic cord through the holes and tie knots at the back. Attach a spring along the bottom part in a row to help keep the brushes in place. Easily seen for selection!
